BORAH CANCELS SPEAKING DATES FOR HARDING

Strong Rumor That He and Johnson May Desert Republican Candidate

(By Associated Press)
Washington, Oct. 1.—Bulletin—Senator Borah, republican, of Idaho, has written republican headquarters at New York and Chicago asking that no more speaking dates be made for him in the republican presidential campaign.

Borah has telegraphed Senator Johnson, of California, another League of Nations irreconcilable, and is awaiting his reply. Borah declined to discuss the message, but there were reports that it had to do with the League of Nations issue.

Borah recently completed a speaking tour in the interest of Harding. There is no explanation here today of his messages other than the reports he and other League opponents are disgusted by the attitude of many of the party leaders on the League of Nations covenant.

Published reports have it that Borah and Johnson are planning to submit a series of questions to Harding designed to develop definitely whether Harding would "scrap" the League if Harding is elected. Borah has stated these reports are "news to me."

8 COX SPEECHES IN OKLAHOMA TODAY

(By Associated Press)
Enid, Okla., Oct. 1.—Governor Cox on his presidential campaign in Oklahoma here today, with a speech in which he made the League of Nations the paramount issue. He also charged Harding with being the leader of "reactionary forces," and said his front porch campaign had "collapsed and been nailed up." He asserted that Senator Lodge was responsible for keeping the United States out of the League of Nations.

STRAW VOTE IS STRONG FOR COX

Louisville, Ky., Oct. 1.—The first week's straw vote being taken by the Rexall Drug stores in Kentucky indicates that the state will take its normal place in the Democratic column in the November election.

In Louisville during the week 286 votes were cast for Harding and 363 for Cox. In the entire state 2,508 were marked in favor of Harding, while Cox received 6,130.

The male vote divided as follows:

Harding, 2,195; Cox, 3,406.

The female vote was as follows: Harding, 436; Cox, 964.

The vote indicates that while Cox will carry the state by a considerable margin the result in Louisville will be close. Although the number of women voting was much smaller than that of the men, they are more pronouncedly for the Democratic ticket than the men. The women are voting for Cox by a margin greater than 2 to 1.

HARDING CONDEMNS THE LAW ENFORCEMENT LAXITY

(By Associated Press)
Marion, Ohio, Oct. 1.—Laxity in the enforcement of prohibition was condemned "without qualification" today by Senator Harding in a front porch speech, outlining the policy of the organized federal effort for the promotion of social justice and welfare to a gathering of women.

Guilty, Can't Prove It

(By Associated Press)
New York, Oct. 1.—Hoynes's office conducted the investigation and found enough evidence to satisfy him that the series was crooked, he said, but not enough evidence has been found to prove the fact.

COX, NOT WILSON, IS THE CANDIDATE

Democratic Nominee Preaches Doctrine To Kansas Farmers Thursday

Wichita, Kans., Oct. 1.—Domestic and international subjects were mingled with the League of Nations issue by Governor James M. Cox in nine addresses Thursday in Kansas.

In response to a question on Mexico, Mr. Cox referred to the statements of Senator Warren G. Harding regarding "protecting" American citizens and interests, and added:

"It's one thing to talk about protecting American citizens, no matter where it might be, but when an adventurer goes into a hornet's nest and knows where he is going, the United States ought not to send a brigade of soldiers with him."

Mr. Cox was quizzed at Hutchinson and Newton regarding prohibition, and again characterized Mr. Harding as a "brower," declared that on Senate prohibition measures Mr. Harding "voted wet thirty-two times and dry two times."

He added that under similar circumstances he would have duplicated Mr. Harding's dry votes.

A man asked why President Wilson vetoed the Volstead Enforcement Act, and the governor replied sharply: "He gave his own reasons. And let me add, Wilson isn't running for president this year; Cox is running for president."

When applause for his Newton audience subsided Cox added that he intended no disrespect "to the man who would take his place in history with Thomas Jefferson and Abraham Lincoln."

Russia, Mr. Cox declared, should be admitted to the League of Nations as soon as its requirements can be met.

About regarding the league's attitude toward Russia if this nation were a member, Mr. Cox replied:

"The league would be compelled to keep hands off Russia and permit the Russian people to work out her own salvation. And Russia will."

Germany, Turkey and all other non-member nations, the speaker added, should be invited in when possible.

To his audience in Kansas agricultural communities Mr. Cox reiterated his plan to place agriculturalists in more governmental positions, again defended the causes for the Nonpartisan League movement, advocated repeal of many war taxes and modification of "most" others and promised federal regulations of the meat packers and cold storage interests.

Mr. Cox again denounced the "senatorial oligarchy" characterizing Senator Henry Cabot Lodge, Massachusetts, as the "arch-conspirator of the world and a narrow-minded bigot, the man who wrote the hymn of hate against Woodrow Wilson." He also flayed those responsible for the arrest of a man who interrupted Mr. Harding's Baltimore speech, and asked:

"Is this America or Russia?"

WHITE HALL

Friends here regret to learn that Miss Jessie Mae Hammock, of Paint Lick, is very ill. She underwent an operation for appendicitis at the Danville hospital.

Mr. and Mrs. C. C. Bowman and family entertained a number of relatives at dinner Sunday. Those present were: Mrs. O. T. McKinney and daughter, Maurine, and granddaughter, of Hamilton, Ohio; Mr. Albert McKinney, Miss Viola Spurlin, Mr. Frank McKinney, Miss Ella Mac Kinney, Mr. Leslie West, of White Hall.

Killing Frosts From Michigan To Arkansas

(By Associated Press)
Washington, Oct. 1.—Heavy to killing frosts are reported today in upper Michigan, upper Mississippi, and the middle and lower Missouri Valleys and light frosts as far south as Arkansas, North Mississippi and North Alabama. The bureau forecasts lower temperature tonight from Michigan and Ohio to the middle and North Atlantic Coast. It is said the temperature would rise Sunday as far east as the Appalachian Mountains.

CHARLES SOPER HAS PASSED AWAY

Mr. Charles Soper, who has been ill for a long time, suffering from Bright's disease, died Thursday night at his home on the Irvine pike. The funeral services will be conducted on Saturday afternoon at 2 o'clock at the residence, the Rev. O. O. Green, of the Richmond Baptist church, officiating. Interment will be made in the Richmond cemetery.

Those left to mourn his loss are a devoted wife and four children, Mrs. Hubert Nicely, of Livingston; Mrs. Lewis Potts, of White Station; Daniel Soper, of Lebanon Junction, and Crutcher Soper, of Madison county.

For the past 36 years, Mr. Soper, who was 69 years of age, had been a devoted member of the Baptist church, and his death removes from the community a well known and valuable as well as highly respected citizen. He spent much of his life in this county, where he was extensively and popularly known.

GROWERS WARNED LOW PRICE MENACE

Extensive Movement Planned At Big Lexington Meeting, Important To All Growers

More than 200 representative tobacco growers from Kentucky, Ohio, and Indiana, are in attendance at the Burley Growers' Association at Lexington, held for the purpose of completing the mammoth organization recently formed and the charter and by-laws, prepared by Judge George C. Webb, of Lexington, were acted upon. The circuit court room was used instead of other quarters, owing to other meetings being held there. The features of the by-laws and charter were described by Judge Webb at the opening meeting. George W. Newman was selected temporary chairman.

Chairman Newman in opening his address, declared that the time is ripe for the burley growers of Kentucky to take some decisive action looking to co-operation and union for the good of the tobacco industry and that with the proper educational propaganda, and a spirit of intelligence, conservatism and consideration for the future, a successful organization of the growers should be easily effected.

He asserted that no one would deny that there is an over-production of tobacco this year; as government reports show that the 1920 crop will amount to between 450,000,000 and 500,000,000 pounds, and that the quota set by the manufacturers for their use is given at approximately 300,000,000 pounds, leaving a surplus of from 150,000,000 to 200,000,000 pounds, according to published estimates.

He stated that prices for high grade tobacco would probably be satisfactory, while those of other grades would be low. Reports from Virginia and the Carolinas, where the 1920 market has already opened, were not at all encouraging to the growers, as most of the tobaccos offered on those markets are selling at only about 33 1-3 per cent of the price they brought last year—a loss of about 66 2-3 per cent.

The speaker declared that in the face of these conditions that many growers in Kentucky believe the only remedy to maintain the price of burley is to cut out the 1921 crop, which he said, the cut-out advocates argued would keep up the price of this year's crop. He deprecated the cut-out sentiment, saying that it would spell lawlessness, disorganization and loss to the growers. The purpose of the new organization he said, is to reach a solution of the problem in a different way. There are two angles to the proposition, he explained, as seen from the viewpoint of the friends of the association—to prevent over-production and to enlarge the markets.

The proposed cut-out Mr. Newman declared, would be only temporary and in 1922, should the cut be resorted to, the growers attempt to double the production, so that the problem would not be solved.

"What we want to do is to stabilize prices, raise tobacco at a profit, and come out on the right side of the ledger," Mr. Newman asserted.

Chairman Newman, in describing conditions in burley district, stated that owing to the scarcity of labor, many growers are paying from \$8 to \$12 a day for "hands" to work in the tobacco fields. Last year, he said, it cost 26 cents a pound to produce burley tobacco and that it would cost fully 30 cents to raise it this year. "The burley tobacco growers of Kentucky," the speaker declared, "cannot afford to sell their tobacco for less than this figure. A lower price will mean ruin and disaster to them and their families. We are anxiously awaiting the opening of the market in Kentucky to see what the price will be. The opening of the market in Virginia and the Carolinas where the 'tobacco combine' is offering less than half the price of production is the most monumental crime against the defenseless growers of those states since the rape of Belgium."

"I cannot predict what the market will be in Kentucky for this year's crop, except by comparison with the prices in those states, but I sound this note of

warning to the 'trust' and the 'alied manufacturers' that if it falls below the price of production the growers of Kentucky will resent it, and I tremble for the consequences, for it is just such robbery as this which breeds lawlessness and Bolshevism."

Chairman Newman emphasized that the new organization offered a remedy, and he predicted that if an effective organization is formed the production can be gradually restricted, prices maintained and millions of dollars go into the coffers of the burley tobacco growers. Moreover, he asserted, that the value of land in the burley district would become standardized and loss prevented in that way. Taking a broader view of the situation and looking to the future, the speaker recommended that all of the tobacco producing associations of the country—those from Virginia, the Carolinas, Michigan and Connecticut as well as from Kentucky, should send representatives to a general tobacco conference at Washington and effect a national organization, to inquire into the slump in the prices of tobacco, urge Congress to standardize the grades of tobacco and enact laws for the benefit of the industry.

N. B. Deatherage Injured

While attempting to adjust some machinery at his farm near the city, Thursday, while his silo was being filled, Col. N. B. Deatherage was severely injured, when his right arm became caught and was badly lacerated. Mr. Deatherage was compelled to come to the city and have the injured member dressed. The machinery was found to be out of order, and was thrown out of gear, and it was before it stopped that he started to do the adjusting with the above result.

Brakeman Is Injured

Burt Parker, Paris, L. & N. freight brakeman, while walking on top of the train near Ford, lost his balance and fell between the cars, escaping with a scalp wound and two toes cut from his right foot. He was brought to the Patti A. Clay Infirmary where Dr. H. C. Jasper attended him. Parker's escape from instant death is said to have been next to marvelous.

NEGRO WOMAN TALKS TO REPUBLICANS

Republican leaders of Madison county must have been well pleased with the result of the speaking at the court house Thursday night, when the wife of a negro named Banks, of Winchester, spoke to a large gathering. The lower court room was crammed to its capacity for the occasion, fully 99 per cent of the audience appearing to be negroes, both men and women. The speaking had not been publicly advertised and there were very few white persons in the room.

The speaker urged the negroes of Richmond and Madison county to vote for the republican ticket and against the League of Nations which she declared violated the Magna Charter, Declaration of Independence, and Constitution.

In urging the negro women to go to the polls, she declared that the colored servants are on the same footing as white girls who work in stores, operate in telephone exchanges, or otherwise work for a living and they should avail themselves of their privilege the same as the white women. Her speech contained many of the standard arguments which the republicans are using in their efforts to win votes.

PERSHING DECORATED

(By Associated Press)
Washington, Oct. 1.—In the name of the American Army that fought in France, General Pershing today accepted the award of the Medaille Militaire, the highest military decoration with in the gift of the French government. The presentation took place at Fort Myer parade grounds, which presented a colorful picture with the French tricolor and the Stars and Stripes floating every where. The French General, Fayolle, who commanded the first American troops to enter the fighting line on the western front, presented the decoration. Secretary Baker and a score of allied military attaches, were present.

STATE TAKES BERA ROAD IN 30 DAYS

Richmond-Winchester Pike To Come Next Thus Relieving County of Big Sections

Within 30 days, the Richmond-Berea road, consisting of 14 miles of Madison county highway, will be ready to be taken over by the state for permanent maintenance, this being the first of the six contemplated by the state in this county. The next one will be the Richmond-Winchester road, extending through Red House, and it is probable this will not be taken over until March, of next year. However, this will be 28 miles of roadway less for the county of Madison to maintain.

The finishing touches are being applied to the first named road and County Road Engineer J. G. Baxter is of the opinion that three weeks of nice weather will let him out, and place road in such condition that there will be no hesitancy upon the part of the state in accepting it. The county road men are rapidly finishing up a number of improvements, but that of the Richmond-Winchester highway will probably be the most extensive, with the exception of the Irvine road. The road to the north will be fitted out with a number of new bridges, a change of location in the vicinity of Red House, as well as elsewhere, and one of the biggest bridges being constructed in the county will be there. This work is well under way and is progressing very rapidly. It is being so arranged that when the road is closed for the completion of the bridge, this blocking will be of but short duration. The abutments are being worked on and the completion of the highway work on this pike will be recorded during the winter months, in order to have it taken over by the state in the early spring.

There are many squads of workmen in various parts of the county hard at work in order to get the highways in the best condition possible before the arrival of rough weather.

No More Small Fines For Speeding, Says Judge

City Judge G. Murray Smith states that he will not again harken to the pleas of anyone, should there be arrests as a result of speeding on the new pavement. The first offense, he stated, will be an object lesson, but this will not admit others to start racing on the newly-paved thoroughfares, at a rate of \$10 per fine. The fine of \$100 was assessed immediately upon the hearing of the evidence, a part of which the court is said to have been personally aware. He was induced through the efforts of City Attorney Chenaunt, to reduce the fine to the minimum, which is \$10. "But," the Judge states, "this will be the last."

Comiskey Wanted To Act

WHAT PIE SUPPERS MEAN TO THE COUNTY SCHOOL

"Those pie suppers you read about in the paper are more important than they appear," said a county school teacher while in the city for a short time. "All this money being spent not only goes to provide a good time for the students and to keep interest going in the schools, but the money itself is made good use of. It goes for little things needed about the schools; little things that are big ones to the students, and things appreciated by them."

When asked regarding the purchase of pies, the informant stated there were some excellent results at most of the events, since there was rivalry between bidders, and the spirit entered into by the young men, especially admirers of those who baked the pies, was friendly at all times, and the financial results are not to be laughed at. At some of the schools, he stated, there are improvements about the buildings and things of real necessity provided through this money, which oftentimes forms the nucleus to a fund that gets its start through the enthusiasm of the students, and they in return for their work get returns on their money. At some of the schools, there have been books and other essentials provided through this means of starting a fund.

Lancaster Avenue Is

The Finest To Be Found

"Now Lancaster avenue," says City Engineer Crecelius, "is a sample of what the streets of the city will look like when finished, and it is my sincere hope that they will be taken care of and protected in proper manner. They represent a cost much less than if the contract had been let at this time, and this is another fact that should be appreciated. I will put that piece of paving on Lancaster avenue up against any street paving in the country for completeness, smoothness of surface and grade. It is really beautiful, and this will be intensified when the rest of the streets are finished." Mr. Crecelius stated the remainder of the streets would be finished in like manner and that the city should be proud of the job, since no pains are being spared in making the thoroughfares as attractive as possible, and it is conceded by Mr. Crecelius, as well as many others, that after the completion of the paving, there will be calls for other improvements, since civic pride will assert itself.

COLLEGE HILL CRY FOR GRADED SCHOOL

A graded school for College Hill is now said to be in great demand, and pressure is being brought to bear upon County Superintendent of Schools B. F. Edwards by a number of residents of that vicinity. The matter will be turned over to the school board and it is probable action will be taken in the near future, although there may be no change this year.

It is said by those at the head of the movement that the number of students justifies this improvement and such schools are being established in the county. The location of the present school is said to be an ideal one for such an institution and those pushing the movement declare that with proper repairing this building can be made available at one-third the cost of a new one. Since Superintendent Edwards has succeeded with so much improvement and extension work generally, he has been called upon again, and those desiring the change believe they will have it realized within a reasonable time.

Students Awaiting

Arrival of New Books

Some students of the city schools are patiently, others impatiently, awaiting the arrival of the new books, of which nothing has been heard very recently. There will be some low grades, it is expected, as a result, however, consideration will be given the fact that the students have been held from the studies.

The history for the 7th and 8th grades have not arrived. The lower grade history is in use. Book one, of the geographies, is also in use, while book No. 2 is not. The No. 2 speller is in service, while the No. 1 is not. In the case of the history and geography, the lower grade pupils will have an advantage over those of the higher ones, since they are able to proceed with their studies.

FIRE GOES UNDER NEW

BOILERS VERY SHORTLY

There will be fire beneath the new boilers at the Madison county jail as well as the court house and the boilers will be working within a very short time, according to the predictions made by attaches of both places Thursday. The matter of heating the county bastille will be according to the newly decided way, in that it will be independent of the court house heating this winter. Everything is in shipshape and fires will be started, it is believed, in the very near future unless there is a change for warmer weather. There was chattering of the teeth, it is claimed, in some of the offices of the court house Thursday, and the heating situation was thus brought up.

UNION CITY LITERARY

REORGANIZED: OFFICERS

The Wilsonian Literary Society of Union City has reorganized for the coming year, electing Mr. Coleman Griggs, a senior, as president. Miss Margaret Baldwin, also a senior, was elected secretary after a very spirited fight. Twelve nominations were made, and it was only after the sixth ballot that an election was made. Mr. Jesse Moberly, a sophomore, was elected vice president. Miss Gertrude Collette, an assistant in high school, was elected treasurer. Mr. James Davis was elected sergeant-at-arms. Prof. Akin, Mrs. Williams and Miss Calico were selected as a program committee by the president. Joint debates with Waco and Kirksville are events booked for the near future.

Told How To Acquire Strength and Energy

Since Vinol was first introduced here some years ago it has made a great many friends among our women, because it is such an unusual remedy. It is the first cod liver medicine ever to have been made without the oil and nauseating grease, and the iron employed in its composition is an improvement over old medicinal irons. Many women here who were pale and sallow and always tired, are now robust and strong, because Vinol certainly and quickly creates red blood and makes one's daily food produce the necessary nourishment for good health. "Not in a long time have I enjoyed such good health or felt so well generally as I do since taking Tanlac," said W. H. Johnson, 319 East 43rd street, Portland, Ore., who holds a responsible position with the Northwest Transfer Company.

"About a year I began suffering from lack of appetite and stomach trouble and since that time—that is, until Tanlac set me right—I have felt so poorly that I could hardly do my work. My food seemed to do me little good, if any, as my digestion was bad, and I lost both weight and strength continually.

"After every meal there was a dull, nagging pain in the pit of my stomach that kept me feeling miserable for hours.

"The gas from my sour, undigested food would bloat me up terribly and my nerves were so upset that I would lie awake half the night unable to sleep. I was constantly having blinding dizzy spells and could not bend over and straighten up quickly but what everything seemed as dark as night to me.

"I was telling a friend one day how bad I felt and he advised me to try Tanlac and I just want to say he couldn't have done me a greater kindness.

"I have picked up all of fifteen pounds in weight, my appetite is fine, and although I am eating just anything I want my stomach never gives me a particle of trouble. My sleep is sound and restful and my strength and energy have been so renewed that my work is no longer a burden to me."

All Mothers Will Find Use For This Laxative

Give Dr. Caldwell's Syrup Pepsin to a constipated child and note its quick recovery.

In a growing family the subject of thought with the parents is how to keep the children healthy and happy, and what to do when they become ill. Most illnesses of childhood are the symptoms of constipation, such as headaches, coated tongues, flatulence, dizziness, loss of appetite and sleep, biliousness, etc.

You can surely feel safe in doing what tens of thousands of others do with good results, so give, according to the age of the child, a small quantity of Dr. Caldwell's Syrup Pepsin. Eight million bottles were bought last year at drug stores. It is America's favorite family remedy for constipation, indigestion and similar ills, and is especially suitable for children, women and old folks as it is so mild and gentle in action.

There is no secret about Dr. Caldwell's Syrup Pepsin. It is a combination of Egyptian Senna and other simple laxative herbs with pepsin and pleasant tasting aromatics. Druggists have sold it for thirty years, and a sixty cent bottle will last for months. Experienced mothers are never without it in the house.

TRY IT FREE

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 512 Washington Street, Monticello, Illinois. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

TOBACCO GROWERS HOLDING PRODUCT

Capacity of Sheds Taxed With Much Tobacco Yet Standing—No Hurry to Sell

While the capacity of most of the tobacco barns and, in some instances, every available shed is packed to its utmost capacity, there is yet considerable tobacco standing in Madison county, and cutting is being continued. There is inclination upon the part of many to allow their plants to remain in the field, some taking chances on a frost, which they do not believe imminent, while others are doing so from the standpoint of necessity. This is due to the fact that they have neither a place to store it nor sticks with which to properly handle it. The demand for sticks is said to continue unabated. Despite the fact that the highest price in years is being paid for them, the sticks are said to be in some instances impossible to get.

The rust has not been making any headway in this locality, it is reported by many during the past fortnight, and much of the later tobacco has been developing. This, it is asserted by some, will make up for that injured by recent rains. There has been little, if any, disposition to sell, and local prices are not being discussed by the average producer, it is claimed, many awaiting the result of the action of the Burley Growers' Association meeting at Lexington on Thursday. This meeting is expected to be productive of reports regarding general conditions, intentions regarding the sale of the year's product, as well as the consideration of a price. There has been much activity upon the part of the association members during the past three weeks, since the officials delegates have been working their respective districts, securing new members, data, etc., pertaining to the intention of the owner, the amount of production and even the necessity of the producer selling. They are reported to be in possession of valuable information regarding the quantity, the quality and the disposition of the producer to sell. This last phase of the investigation is said to be very extensive, and the financial condition of owners of the weed either in the field or shed is pretty well known. This and other movements are for the protection of the producers.

What Well Dressed Men Will Wear This Fall---

The styles for fall and winter are simple, but all the more attractive on that account.

They depend for their beauty on the grace of line and drape, the turn of a lapel, the set of a shoulder.

Two and three button single breasted suits will be favorites; many double breasted models will be worn also. You'll find no frills.

The coat openings are lower; the coats are a trifle longer and less body tracing; the waist line is set a little lower; shorter vents.

Simplicity is the idea; that takes real designing art; to make clothes that stand out from the others that are apparently the same—and yet so different.

Hart Schaffner & Marx know how to design; we have the clothes; we'll be glad to show them; the prices are right.

them. The right to vote has been given you. Be a woman now and go vote. You owe this solemn duty to your country, just as much as you owe your duty to the church.

We know it is a new thing, and, therefore, not fully understood, or perhaps as duly weighed by some. It should be, but there is no doubt but Democratic success lies in the hand of the women. So, if you are a Democrat, be one and go and register and be at the polls on election day and help win the most sweeping victory for the Democrats the country has ever known, and this victory is an absolute certainty if the Democratic women will come out and register and later on vote.

You must remember that the only countries who have not adopted the League of Nations are such countries as Germany, wildly torn to pieces; Mexico, Turkey, Russia, etc. Do we want to be placed on an equality with such countries? No, a thousand times no. But the victory of the League of

Nations lies in the woman's hands. You can save it or defeat it. Which will you do? We count on you to do the right thing and save the country. If you fail to register on Tuesday you will not have the right to vote

either in the coming November election or in any other election next year and, while you might be opposed to voting now, next year you probably would strongly desire to cast your vote in the primary for some close

friend or relative, so don't miss this opportunity of vote. There will be women stationed at every registration booth to assist you and show you about registering.

Every Drop of Your Blood Should Be Absolutely Pure

Any slight disorder or impurities is a source of danger, as every vital organ of the body depends upon the blood supply to properly perform its functions. Many painful and dangerous diseases are the direct result of a bad condition of the blood. Among the most serious are Rheumatism, with its torturing pain; Eczema, Tetters, Erysipelas and other disfiguring skin diseases; general debility, which makes the strongest men helpless, and many other diseases are the direct result of impure blood. You can in a large measure avoid liability to disease by the use of S. S. S., the wonderful blood remedy that has been in constant use for more than fifty years. S. S. S. cleanses the blood thoroughly. It is sold by druggists everywhere. CONFEDERATES TO MEET AT HOUSTON

On October 5 to 8 for Their
30th Annual Grand
Reunion.

Houston, Tex.—Houston throws wide its gates to the South for the 30th Annual Confederate Reunion, October 5 to 8.

Three organizations will meet in Houston that week. The United Confederate Veterans meet for the thirtieth time, October 5 to 8. The Sons of Confederate Veterans hold their 25th annual reunion and the Confederate Southern Memorial Association holds its 21st annual convention October 5 to 8.

Houston is preparing for 10,000 veterans and 65,000 other visitors.

One thousand aged and feeble veterans will be cared for as guests in Houston homes. The others will not live in camp, as in most previous reunions. Instead, they will be billeted in schools and downtown quarters, as they were in Tulsa and in Memphis.

The war department's refusal of cots and blankets for a camp, because of a resolution passed by Congress granting tents but failing to mention other equipment, caused the change of place.

Veterans will be housed more comfortably, if less picturesquely, than they would be in a camp, and will be safe from bad weather. However, only smiling skies and golden Texas sunshine are to be expected for reunion week.

For the members of the Sons of Veterans and the Memorial Association and their families, Houston is reserving places in private residences. The hotels will take care of 10,000. Housing solicitors are getting pledges of house room for 50,000 paying guests. The usual rate asked is \$1 a night per person, where two or more occupy a room. Breakfast, where furnished, costs 50 cents, and the evening meal 75 cents. These prices are designed to cover the cost of accommodation, not to make profit.

On arriving in the city, visitors will register at booths at the railroad stations and will be assigned lodgings. Each will be handed a card listing the address, the car line which leads to it, distance from the car line, rates and room arrangements. A sufficient force will be kept on duty at each of the three terminals, day and night, to handle the incoming crowds, even though during the 24 hours just before the reunion opens a train every eight minutes is expected to unload.

Lodging and meals are free to veterans.

Steward E. A. Pickens, who for seven years has fed the "boys," is on the job again. A mess kitchen, a dining hall, and a sandwich and hot coffee stand, are being built on a vacant square just four blocks from the City Auditorium, which is official headquarters. A medical aid station, and two comfort stations will be handy, on the same tract.

The veterans' billets will be chosen for their nearness to the headquarters and the mess establishment. The "boys" will sleep on mattresses, spread down on the floors. Since South Texas enjoys straw hat weather up to the last of October, there will be no danger of catching cold.

So much for the necessities of living during the reunion. Regarded as a spectacle this promises to be one of the most striking ever held. Decorations outdoing even the famous display at Tulsa are being put up by the same decorators. Sixty city blocks will be decorated.

The annual reunion of the Confederate organizations is the South's most brilliant social event. Houston, appreciating this, has mapped out a social program for its guests that includes: A general reception Tuesday, October 6, to "get acquainted," in hearty Texas fashion.

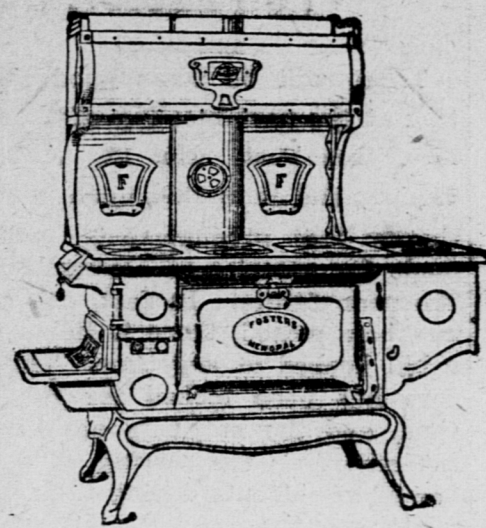

Nine brilliant receptions and teas of official rank, besides dozens of private functions.

The usual grand ball of the U. C. V. and another for the S. C. V. Automobile drives over the city and a trip to the famous Houston Ship Channel and Turning Basin, "where 17 railroads meet the sea."

"Memories of Dixie," a song and dance revue of the Old South and the New, will be presented as a compliment to visitors. A cast of 50 singers and dancers will portray life in the South, from "befe de wah" to the present day, singing in each scene the songs that were popular at that time.

With the fare one cent a mile from any point in the Confederacy, Houston expects thousands to take advantage of the reunion to see Texas before the return trip limit, October 31. Thousands will go on to the Dallas State Fair, the greatest exposition in the Southwest, which this year will show better than ever the resources and possibilities of the most talked-of state in the union, Texas. This fair begins October 9 and ends October 24. The round trip fare from Houston is \$12.52. The one-cent rate is granted only to members of the U. C. V., S. C. V., the Memorial Association and their immediate families, on presentation of identification certificates. Hundreds of camps of Sons are being organized especially to afford the chance to visit Texas on cent-a-mile transportation.

But 42 Civil war veterans of the 10th and 16th Kentucky regiments survive.

BEEA MAN IS TRUANT OFFICER

William Johnson is the new Madison county truancy officer, he having been selected by the members of the school board at a meeting Wednesday afternoon. Mr. Johnson, who is a deputy sheriff at Berea, will assume his duties immediately and will report for duty prepared to start in on the work. He has been connected with schools indirectly for some time and it is believed will make a good officer. The county has been without an attendance officer since the necessary resignation of Prof. Paris B. Akin, who found that he could not attend to this work and give the proper attention to his school work.

The board attended other routine matters looking after schools now being improved and the heating for the season. There is a great quantity of coal on hand and it is expected this will be reduced within a short time after the cold period arrives.

CLEMENCEAU'S SLOUCH HAT IS NOW ON EXHIBIT

(By Associated Press)

Paris, Sept. 30.—Little did the former Premier Clemenceau, when he journeyed to the front in the troubled days of 1918, thing that the unmy little slouch hat that he wore on these occasions would become the special headgear to be worn with evening clothes. The Clemenceau hat, however, seems to be destined to have a great future.

"Ever since the war men have been feeling the need of a special head-

gear," a prominent Paris hatter said. "The silk hat is too formal; the opera hat is too theatrical; the bowler looks provincial and soft gray hats and the straw hat are out of place with evening dress. The Clemenceau hat, which is black and light to wear, easily transportable and capable of being crushed into an overcoat pocket in case of need, will solve a long felt want that well dressed men feel especially since the war."

The Clemenceau hat occupies a prominent place at the Lepine Exhibition in the Grand Palais.

TAXES

"The County Tax Commissioner of each county shall keep his office open at the county seat for the purpose of assessing property at all reasonable times (except Sundays and legal holidays), from the first day of July to the thirty-first day of October, inclusive, of each year."—Chapter 40, Acts 1920.

Therefore, you are cordially invited to call and list your property before October 31, 1920.

Chamberlain's Cough Remedy

This remedy is intended especially for coughs, colds, croup and whooping cough. From a small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case.

Millions for a New Stomach

One of the greatest American millionaires said to his physician, "A million dollars, Doctor, spot cash and no grumbling, for a new stomach," and then the sick man groaned and turned away. All his wealth could not make him happy or contented, for happiness largely depends upon digestion. Without health where does happiness come in? After all the stomach plays a great part in everyday life. Without a healthy stomach and good digestion our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. Prevent disease by putting the house in order and strengthening the system against the germs of disease.

Dr. Pierce, of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood diseases and their prevention, and he discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that could be easily procured at the drug store (liquid or tablets). This he called Dr. Pierce's Golden Medical Discovery. This Discovery gives no false stimulation because it contains no alcohol or any narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. It gives to the blood the food elements the tissues require. For over fifty years it has enjoyed the confidence of the American public. Try it now!

"ATHLETIC TALK" FOR LEGION SOON

There will be some good athletic talk at the next meeting of the Jesse M. Dykes Post, No. 12, American Legion, and it is said upon good authority that arrangements will be made for a series of boxing bouts in the near future. In fact, one of the members stated, there is liable to be a bill booked at any time. This feature has been looked for for some time, and the members are in earnest regarding the placing of a number of good bouts during the fall and winter months.

"Athletics will take a prominent part," said one of the officers of the legion, in speaking of the contemplated contests to be pulled off soon. "We do not intend to sit by and hear of the other fellows in other parts of the state having all the sport. The Richmond post is very much alive and we intend to keep it so. There has been so much in the way of counter-attraction in the city for some time that we have not been able to start anything. However, this will be done, and there will be some true sport within a short time, I can assure every member."

YOUNG VETERANS MAKING A RECORD

There are government orders now being followed out at the Pattie A. Clay hospital, where soldiers are receiving attention from the medical and surgical staff of the new hospital unit. One of them, the first to be in order, was brought about by the first two operations under the unit regulations by the patients, Messrs. Rodes Terrell and Oscar Stanifer, who recently underwent operations for hernia. Uncle Sam does not do things by halves, and his interest is always turned to the interest of the patient when there is an operation to be considered, hence the rules governing all operations and special treatments. This one pertains to the treatment which took the two Richmond men to the institution, and they have decided to carry out the order to the letter. The rule is that every victim of this affliction, which is a serious one in many instances, is that they remain flat upon their backs for a period of not less than 41 days.

This is for the purpose of admitting of a thorough healing of the flesh after the work of the knife. There is a clause, however, in the rule that renders it possible for the patient to spend the second half of that period in his home, should it be deemed advisable, upon the part of the surgeon in attendance. Even though the change is made, it can only be effected by the patient being kept quiet and flat of his back. The two Richmond young men, the first to be operated upon, are seeking a record, also to get well, and they have decided to remain, according to order, the full length of time, making the first cases perfect, if possible, and adhering to all rules and regulations. This decision was reached Thursday by the patients, and Dr. O. F. Hume acquiesced, stating he was pleased with their decision, it assuring better results in the end. Both young men are doing nicely.

An Agreeable Surprise

"About three years ago when I was suffering from a severe cold on my lungs and coughed most of the time day and night, I tried a bottle of Chamberlain's Cough Remedy and was surprised at the promptness with which it gave me relief," writes Mrs. James Brown, of Clark Mills, N. Y. Many another has been surprised and pleased with the prompt relief afforded by this remedy.

At Danville, Va., while federal officers were pouring whisky into the gutter, John Lee, negro, who could not stand the strain, straddled the rivulet and drank deep and long. He was arrested and fined.

Kirksville Suburban Home

'Tis seldom that we are able to offer you a chance equal to this one. Situated between the villages of Kirksville, Ky., and Round Hill, Ky., on the Kirksville and Kentucky River turnpike known as the John W. Turner property to be offered for sale to the highest and best bidder on

Saturday, October 9, at 10 a. m.

Kirksville is a town of about 500 people, has a bank, general stores, drug store, Lodge Hall, garage, meat shop, blacksmith shop and a live progressive town, just one mile north of Kirksville most space between these towns built up in homes), is the town of Round Hill, a thriving little village that can boast of nearly as many inhabitants as Kirksville, has its blacksmith shop, garage, three general stores, grist mill.

KIRKSVILLE HIGH SCHOOL

About half way between these towns and within one-fourth of a mile of the property we are going to offer, is the Kirksville High School. Said school is accredited and gives a child a 12th grade education without costing the parent or property owner any tax except the regular county school tax. A handsome brick structure that is a credit to any community. This neighborhood is noted throughout Madison county for its high morals and a hunger among its citizenship to build and mold into the minds of its children a desire for higher and better things. A real place to rear and educate your children.

ACREAGE AND SOIL

Only 34 acres of this dandy little farm, and this of good land, a good portion being of that high type sand-stone soil which is noted for its wonderful production and high priced burley tobacco.

SUB-DIVISION

There are many people who would like to own this home, but who feel that it is too large for their pocketbooks, so I am going to divide this place into three or four small tracts to permit you to get just the number of acres you want.

IMPROVEMENTS

A modern six-room cottage house, nearly new, with a pretty front yard, young shade trees growing and in all just a pretty place. A four acre tobacco barn with galvanized roof and nearly new. Fencing is of the best and all nearly new.

If you want a good place to live, where you can make easy money and where your wife will always wear a smile and greet you pleasantly when you come about, and where your children can get real life and receive education without being put to any additional expense, I have the place.

We will be glad to take all interested parties over the land before the sale and will be glad to cut off any piece or part of this farm and offer separately if you are interested and will see John W. Turner, at Kirksville, Ky., or
